

Expanded PTFE Sheet

Code: RGSB302

Description

Expanded PTFE sheet as similar as GORE, KLINGER, TEADIT, etc. It is a universal sheet gasket material for most services, seals rough and irregular surfaces.

Item no.: RGSB302

Expanded PTFE Sheet

Item no.: RGSB302

- * Best chemical corrosion resistance
- * PH range 0~14
- * Not only resists chemical attack, but it will not contaminate

Typical Application

* Distilleries, petrochemical, food and beverage, pharmaceutical, general chemical, power generation, iron and steel manufacturing, pulp and paper, etc.

Technical Data

Temperature: -180~+260°C

PH: 0~14

Thickness: 1/32", 1/16", 3/32", 1/8", 3/16", 1/4".

Color: White, Blue.

Size: 60"x60"
