

Acrylic Fiber Treated With Graphite

Code: RGSP602

Rubber & Gasket Supplies Co., Ltd

Description

Braided from high strength acrylic fiber treated with graphite and special lubrication. The graphite increased the temperature and excellent lubricated.

Item no.: RGSP602

Acrylic Fiber Treated With Graphite

Item no.: RGSP602

* Especially for the condition of high-temperature, high pressure, medium speed.

* The graphite increases the service temperature and the density of the packing

Typical Application

- * Universal packing for pumps and valves
- * Handle water, air, steam, mild acids and alkalis
- * All kinds of organic solvents and chemicals

Technical Data

Material	100% Acrylic fiber and Graphite
Temperature Range	-50 up to +350 oC atmosphere
Rotating	20 bar
Reciprocating	100 bar
Static	150 bar
Shaft Speed	15 m/s in rotary
PH	1~13
Density	1.3g/cm3
